🪪 PROFILE

junior Flutter developer looking for a job where I can use my skills and grow. I've spent the past 2 years learning Flutter and working on different projects to gain more experience. I've built user-friendly apps in which i tried out the latest Flutter features, always aiming to write clean code. I enjoy working with others and bringing new ideas to the table. My goal is to contribute to a team and learn from real world challenges.

💼 PROFESSIONAL EXPERIENCE

Junior Flutter Developer   Jul 2024 | Remotly
Alkashier Company
   Worked on designing and developing high-quality mobile applications for both Android and iOS platforms. Implemented modern UI/UX designs, integrated APIs, and ensured optimal performance across devices.

🖥 PROJECTS

E-commerce Bimokook
Saudi-Egyptian e-commerce app that offers a seamless online shopping experience. It provides a wide range of high-quality products at competitive prices from Bimokook Store, with convenient payment and delivery options
   Available on **Android** 🔗 / **iOS** 🔗

Ratbli - Ratbli B2B
Saudi-Egyptian-Emirati e-commerce app with two flavors: Ratbli and Ratbli B2B. It specializes in managing events and parties, offering a wide range of products and services for individuals and businesses.   Ratbli: For personal shopping needs.   Ratbli B2B: For businesses with bulk and customized
   Ratili Available on **Android** 🔗 / **iOS** 🔗
   Ratili B2B Available on **Android** 🔗 / **iOS** 🔗

MEW

Upcoming app by the Kuwait Ministry of Electricity designed to provide convenient access to electricity-related services. The app aims to simplify bill payments, service requests, and updates for residents. Currently under development, it promises to enhance efficiency and user experience once launched

Available on **Android** 🔗 **/ iOS** 🔗

Alkashier Pos offline 🔗

Desktop application designed for restaurants, shops, and retail businesses. It streamlines all sales and purchase transactions, offering a reliable and efficient point-of-sale solution that works seamlessly without an internet connection.

Available on : **Windows / Mac**

أذكار

A religious app designed to simplify the daily recitation of Azkar and authentic supplications. With a user-friendly interface, it offers a variety of categorized Azkar, daily notifications, and the ability to save favorites for easy access.

Available on **Android** 🔗 **/ iOS**

Country Code Fix

A mobile application that updates phone contacts to match the selected country code, making international communication easier. The app allows users to choose a country code and automatically updates stored phone numbers accordingly, with a clean and user-friendly interface.

Available on **Android** 🔗 **/ iOS** 🔗

بشرى

Designed for interpreting dreams based on Islamic teachings. Users can register either as dreamers seeking interpretation or as interpreters offering insights. The platform allows both parties to connect and communicate easily, providing a smooth and interactive experience. With a clean design and useful features, Boshra offers a reliable space for understanding dreams in a meaningful way.

Available on **Android** 🔗 **/ iOS** 🔗

🧠 TECHNICAL SKILLS

Programming Languages & Frameworks:
- Dart
- Flutter

Networking:
- HTTP & Dio Package

State Management:
- Bloc
- Provider
- GetX

Tools:
- Git, GitHub, GitLab

Backend & Data:
- Firebase
- Hive
- RESTful APIs

Object-Oriented Programming (OOP)

Development Practices:
- SOLID Principles
- Clean Architecture
- Design Patterns
- Clean Code

🗨 SOFT SKILLS

- Problem-Solving
- Effective Communication
- Time Management
